What do I like about Downtown Highland? Downtown has so many places from restaurants to clothing shops. Downtown Highland is a beautiful part about Highland and here's why. Downtown Highland has many different restaurants to eat at. On one Tuesday a month, Downtown does a restaurant crawl. The restaurant crawl is where people go downtown to eat and drink what the place offers you. For example, one place could offer pizza while another offers tacos for a cheap price. This helps everyone meet new people and support Downtown restaurants and shops.

Next, Downtown has many different shops depending on what you want. There are stores like clothing shops and supply shops. My personal favorite is the stationary store because I love to draw and journal. There are other stores for animals, tools, and other supplies.

Lastly, Downtown has amazing murals and areas to sit and hangout out. Main Square Park is an awesome place to hangout at. You can sit by the fountain or you can sit down by the flower pots all over Downtown. You can even take pictures in front of the amazing murals. There is a bird mural, a bee mural, and others. They add a nice touch of creativity to the town. These are the reasons as to why I love Downtown Highland.
