### Downtown Highland

What makes downtown Highland fun for me is the vast array of different shops, restaurants, and attractions that can be partaken in. The charm of the place is nostalgic and unreal for me. I remember attending OLG school and walking through Main Square and all the shops that downtown Highland had to offer.

Some of my favorite restaurants to go to include Langels where it's fun to hangout with friends and family. I love their pizza and boneless wings. I also love Les Cafe where I get their Belgium waffle and organize juice for breakfast. My favorite overall restaurant is Sakura Bowl because sushi is my favorite food and I order the Rainbow Roll when I am there. I have been taking guitar lessons at HGS music for 6 years and I love every second of it.

I have so many childhood memories in downtown Highland. I loved going to the fire station open house every year as a kid where I would ride in a fire truck all around Highland. I liked to play at the main square and run around by the gazebo and listen to live music there during the summer. I always sat by Main Street watching the Fourth of July parade every year with my family and enjoying what it had to offer.

Overall, downtown Highland is one of my favorite places to be at with all the bike trails, entertainment, and food it has to offer. If I had to add one thing it would probably be more festivals during the summer. Those are my favorites to go to. I always have a blast. That is why I love and always have fun at Downtown Highland, a place I will never forget.
