

## What Makes Downtown Highland Fun

By: Isabella T

What makes Downtown Highland fun to me? I am going to share with you in the next few paragraphs what makes Downtown Highland fun to me.

I am going to talk about The Counter, Langles, and The Green Witch. I will also be writing about the Highland library, murals, and fire station in Downtown Highland.

First, my favorite thing about Downtown Highland is the food and restaurants. The Counter is one of my favorite ice cream places! There are lots of different flavors to choose from. They also have other treats like pies, Italian ice, and milkshakes. The Counter is also a great place to go to with your family or friends. Another one of my favorite places to go in Downtown Highland is Langles Pizza. It is probably my favorite restaurant. They have the best pizza ever, but they have lots of other delicious foods, too. The Green Witch Cafe has the best smoothies ever! They use lots of fruits and vegetables, so it's healthy, but still delicious. They also use fresh fruits. Inside there are also things you can buy. You can buy things like dream catchers and things for dogs.

There are other fun places like the Highland library. I love going to the library after school, I can check out books to read or I can just read there. The Highland library also does special events. For example on Wednesday nights one time a month you can read to dogs. Another thing I think is fun about Downtown Highland is the murals. There are murals on the sides of buildings and on walls. There is one mural on the side of The Counter. The murals are fun to look at! The fire station is also one of my favorite places in Downtown Highland. Sometime in the summer the fire station has an open house. So you can go inside and go in some of the fire trucks and you get to watch firefighters do their job and put out a fire. You can ride around in fire trucks too!

Downtown Highland has lots of fun places to eat and visit. But all the places are great. That's what makes Downtown Highland fun to me.
